Professional Summary

Frontend Developer specializing in React and Next.js, with experience building scalable and user-focused web applications. Strong focus on UI/UX and performance optimization, with the ability to translate design concepts into clean, maintainable code in agile environments.

Professional Experience

Frontend developer (intern)
Route | Mar 2025 – Sep 2025

- Built and maintained responsive web applications using React and Next.js
- Developed reusable UI components following modern component-based architecture
- Integrated REST APIs and handled asynchronous data using modern JavaScript practices
- Collaborated with mentors and peers to improve code quality and application performance
- Applied best practices in responsive design, ensuring cross-browser and mobile compatibility
- Participated in code reviews and received feedback to enhance technical and problem-solving skills

Commercial Salesperson
Real Estate Solutions (Remote) | Jan 2023 – Sep 2025

- Generated and qualified leads through high-volume outbound calls
- Identified client needs and delivered tailored real estate solutions
- Improved client conversion through effective communication and negotiation
- Developed strong skills in persuasion, problem-solving, and client relationship management

Frontend Developer (Freelance)
Remote Callers | Sep 2023 – Oct 2023

- Developed and maintained a real estate lead-generation platform
- Built responsive user interfaces using HTML5, CSS3, JavaScript, and Bootstrap
- Collaborated with stakeholders to improve usability and user experience
- Delivered a functional platform supporting real estate investors in the US market

Projects

Fresh Cart – E-commerce Web Application

- Built a full-featured e-commerce application using React, Next.js, TypeScript, and Tailwind CSS
- Implemented global state management with Context API and NextAuth for authentication
- Integrated Stripe API for secure payment processing
- Used React Query for efficient data fetching, caching, and synchronization
- Translated UI designs into responsive, user-friendly interfaces
- Structured components to support A/B testing and performance optimization
