PROFESSIONAL EXPERIENCE

Frontend Developer – Intern

Route | Alexandria - Egypt | 03/2025 – 09/2025

- Built and maintained responsive web applications using **React** and **Next.js**, improving page load performance by applying SSR and code-splitting techniques.
- Developed a library of **reusable UI components** following atomic design principles, reducing duplication across the codebase.
- Integrated **REST APIs** and managed asynchronous data flows using modern JavaScript patterns (async/await, React Query).
- Participated in weekly **code reviews**, incorporating feedback to improve code quality, readability, and maintainability.
- Ensured **cross-browser and mobile compatibility** across all delivered features using responsive design best practices.

Frontend Developer – Freelance

Remote Callers | Remote | 09/2023 – 10/2023

- Developed a **real estate lead-generation platform** using HTML5, CSS3, JavaScript, and Bootstrap, serving US-based real estate investors.
- Delivered a fully **responsive, cross-browser-compatible** interface in collaboration with stakeholders.
- Improved platform usability through iterative UI/UX feedback sessions, reducing bounce rate on key landing pages.

Commercial Salesperson (Remote)

Real Estate Solutions | Remote | 01/2023 – 09/2025

- Managed high-volume outbound lead generation, qualifying and converting prospects into clients.
- Built strong client relationships through effective **communication, negotiation, and problem-solving**.

PROJECTS

Fresh Cart – E-Commerce Web Application

React | Next.js | TypeScript | Tailwind CSS | Stripe | React Query | NextAuth
Live: fresh-cart-ekbf.vercel.app | GitHub: github.com/yahia-nasser/Fresh-Cart.

- Built a **full-featured e-commerce platform** with product listing, cart, checkout, and order management.
- Integrated **Stripe API** for secure payment processing and **NextAuth** for authentication and persistent sessions.
- Used **React Query** for efficient server-state management, caching, and background synchronization.
- Structured components to support **A/B testing** and applied performance optimizations (lazy loading, image optimization).

Linked Posts – Social Media Application

React | Next.js | TypeScript | Tailwind CSS | shadcn/ui | NextAuth
Live: linked-posts-beta.vercel.app | GitHub: github.com/yahia-nasser/Linked-Posts

- Developed a **real-time social platform** featuring posts, comments, and user profiles with persistent authentication.
- Optimized UI for **responsiveness and real-time interaction**; tested across multiple browsers and screen sizes.
- Used **shadcn/ui** and Tailwind CSS to build a consistent, accessible design system.
